Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest inserting a time-delay indication into a packet by a router where the time-delay indication is used by a base transceiver site to synchronize transcoder transmission time to base transceiver site transmission time. Rather the prior art discloses transmitting delay times by using time-stamps in the header of a packet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
